

BIOGRAPHICAL SKETCH

Provide the following information for the Senior/key personnel and other significant contributors in the order listed on Form Page 2.
Follow this format for each person. **DO NOT EXCEED FOUR PAGES.**

NAME Michael A. Jacobs	POSITION TITLE Associate Professor of Radiology and Oncology		
eRA COMMONS USER NAME (credential, e.g., agency login) majacobs			
EDUCATION/TRAINING <i>(Begin with baccalaureate or other initial professional education, such as nursing, include postdoctoral training and residency training if applicable.)</i>			
INSTITUTION AND LOCATION	DEGREE <i>(if applicable)</i>	MM/YY	FIELD OF STUDY
University of Michigan	B.S	1990-1993	Mathematics Engineering Science
Oakland University/Henry Ford Hospital, Rochester, Michigan	Ph.D.	1994-1999	Biomedical Physics
The Johns Hopkins University School of Medicine, Baltimore, MD	Postdoctoral	2000-2002	Radiology

A. Personal Statement

Dr. Jacobs' current research interests include developing radiological methods for detection, monitoring, and treatment of cancer. He serves on the National Board of the American College of Radiology Imaging Network (ACRIN) Breast Imaging committee, as a member of the subcommittee of molecular and functional imaging of the ACRIN and as co-director of the Imaging Radiological Assessment Team (IRAT) at Johns Hopkins. Dr. Jacobs has pioneered the development of multiparametric analysis of different pathologies that can combine different modalities to derive diagnostic biomarkers and investigating their use in tumors. He is also PI on the Quantitative Imaging Network (QIN) P01 at JHU for developing novel methods for determining treatment response in clinical trials.

B. Positions and Honors

Positions and Employment

1980-92 United States Air Force: Non Commissioned Officer (NCO), Asst. NCOIC Supervisor of Emergency Room Medical Technician. Wilford Hall Medical Center San Antonio, TX, Lackland AFB

1993-95 Graduate Research Assistant, Mathematics Dept. Oakland University, Rochester, MI

1995-99 Senior Research Assistant, Depts. of Neurology and Radiology. Henry Ford Hospital, Detroit, MI

1999-00 Stroke Research Coordinator, Depts of Neurology and Radiology. Henry Ford Hospital, Detroit, MI

2000-02 Radiological Fellow, Dept. of Radiology. Johns Hopkins University School of Medicine

2002-03 Clinical Instructor, Dept. of Radiology, Johns Hopkins University School of Medicine

2003-06 Asst Professor, Dept. of Radiology, Johns Hopkins University School of Medicine, Baltimore, MD

2005-06 Asst Professor, Dept. of Oncology, Johns Hopkins University School of Medicine

2006-07 Visiting Associate Professor, Radiology, The University of Pittsburgh Medical School

2007-08 Visiting Associate Professor, Oncology, The Johns Hopkins University School of Medicine

2007-08 Visiting Associate Professor, Radiology, The Johns Hopkins University School of Medicine

2009-present Associate Professor, Radiology, The Johns Hopkins University School of Medicine

2009-present Associate Professor, Oncology, The Johns Hopkins University School of Medicine

Other Experience and Professional Memberships

2003-07 Grant reviewer, Susan B. Komen Foundation for Breast Cancer. Dallas, TX

2003- Committee member, Breast Committee of the American College of Radiology Imaging Network (ACRIN)

2004-08 Grant reviewer, CBCRB foundation breast cancer. UCLA

2005 Grant reviewer, P01-Targeted Therapy Panel, NIH/NCI

2009 AAPM committee member: Task Group No. 189 - Validation of software tools for quantification of DCE MRI data

Honors

- 2000-02 National Research Service Award Cancer Research Training Grant
2000 First Place Award in Clinical Research at JHMI Oncology Center Research Day
2008 Bronze medal winner at the American Roentgen Ray Society, Washington DC
2009 Certificate of Merit Award at the Radiological Society of North America, Chicago IL
2010 (2) Certificates of Merit Award at the Radiological Society of North America, Chicago IL

Patents

- (P#604/12/772,176) A compression device for enhancing normal/abnormal tissue contrast in MRI. Osmen N, Jacobs MA, Axel K, and Fahmy A
(P11328, 61/443,748) Multiparametric Non-Linear Dimension reduction methods for segmentation and classification of radiological images. Jacobs MA, Akhbardeh A.
(P11421, 61/443,770) A novel 3D registration and reslicing of radiological images. Akhbardeh A., Jacobs MA

D. Research Support

Ongoing Research Projects

2P50CA103175-06A2 (Bhujwalla) 09/22/11 - 07/31/16

NCI JHU ICMIC Program

This center grant funds an *in vivo* Cellular and Molecular Imaging Center at Johns Hopkins. The program consists of four research components, four developmental projects, one career development award and four resources.

P50CA88843 Cancer Center (Sukumar) 09/01/010-8/30/12

Breast Spore Grant

The goal of this grant to develop whole body imaging for metastatic breast cancer patients.

2UO1 CA70095-14 (Carducci) 03/01/08-02/28/13

NIH/NCI

Phase I Clinical Trials of New Anti-cancer Targeted Therapies

The major goal of this project is to evaluate new agents for advanced cancer.

U01CA140204 (Wahl, Jacobs, Frey) 09/01/11-08/20/16

NIH/NCI

Quantitative Cancer Imaging

The goal of this grant to develop MRI, PET, and SPECT quantitative metrics for treatment response.

Completed Projects Within Last Three Years

P30CA006973 (Nelson) 05/07/97-04/30/12

NCI

Cancer Center Support Grant – Functional Imaging Core

The goal of this project is to provide an imaging resource for the Sidney Kimmel Comprehensive Cancer Center. The Core provides molecular and functional imaging services using MR, PET and optical imaging, trains and assists investigators in the use of imaging technologies, guides investigators in the use of the most relevant imaging technologies for the proposed project and assists in developing new concepts in image analysis and visualization.

RO1CA100184 (Jacobs) 07/01/04-06/30/11

NIH/ NCI

Multiparametric MRI in Breast Cancer

The major goal of this project is to evaluate the role of novel MRI techniques such as proton MR, sodium, and spectroscopy in the characterization of breast cancer.

NCI P50CA103175-05S1 (Bhujwalla) 08/01/03-07/31/11 NCE

JHU ICMIC Program

This center grant funds an *in vivo* Cellular and Molecular Imaging Center at Johns Hopkins. The program consists of four research components, developmental projects, career development awards and five resources.

5P30CA006973-43 (Abeloff) 11/01/05-10/30/09

NIH Imaging Radiological Assessment Team

The major goal of this project is integrating radiology into the cancer center using PET/CT and MRI.
